

## SAN DIEGO ASLA STEWARDSHIP COMMITTEE WORKSHOP

### DISCUSSIONS ON LOW IMPACT DEVELOPMENT SOLUTIONS STORMWATER MANAGEMENT & BIORETENTION PART 2

A year has passed since we discussed regulations of a new San Diego Municipal Separate Storm Sewer System MS4 Permit. A major shift has been made in measuring and achieving improvements in storm water discharge and water quality.

We have invited back county representatives and the design community to discuss recent experience, best practices and lesson learned in storm-water management & bioretention basins. We will also discuss how to design, build & maintain successful bioretention areas & much more:
