Join Suzie Wiest and Nicholas Staddon from Tree Town USA, formally Village Nurseries, on a journey of discovery.

Since the merger of the two companies, the offering of new plants has increased dramatically. Suzie and Nicholas will provide details on the most relevant plants today, to assist in making your designs the very best they can be.

Some of you might have had the opportunity to see the film made by Piet Oudolf, *The Five Season Gardens of Piet Oudolf*. Nicholas will present on Mr. Oudolf and some of his most famous works in the United States.

Sip, watch, learn and enjoy with us.
